General course content

The sessions Prague are devoted to Europeanization, i.e. the question in how far the EU changes the political system, politics and policies of its Member States. In this regard and given Prague as venue, the course will especially take into account the perspective of an Eastern European Member State that joined the EU rather recently. Dan Marek of the Palacký University Prague will motivate students to reflect on Member States' different preferences on how to proceed with European integration and why Eastern European Member States currently hold divergent ideas on the EU than Western neighbours with regard to migration-related issues or domestic political reform.
